EXPERT SERVICE DEPARTMENT

PERSONALIZED SERVICE

Anyone can sell a forklift. Personalized service after the sale makes customers feel confident that they are buying from the right company. They want service that is timely, courteous, economical and done right the first time. That is why Ranger puts so much emphasis on the type of service we provide.

Ranger has the type of personal contact that is not experienced at large dealerships. Customers can still reach out to Ranger ownership and management, and we will answer the phone no matter the time of day or any day of the week. We want to make sure that our customers are taken care of even if they call us on a weekend or a weeknight.

On the technical side, customers want to know that skilled, knowledgeable technicians are working on their equipment. To keep technicians up to speed on the latest technology and prepared to work on any brand and type of forklift, we have an in-house trainer.
