

**YOU NEED
DEPENDABLE
LIFT TRUCKS**

COUNT ON RANGER.

RANGER

LIFT TRUCKS

A yellow forklift is shown from a rear perspective, operating in a narrow aisle of a warehouse. The aisle is lined with high, industrial shelving units filled with boxes. The forklift is positioned in the center of the aisle, moving away from the viewer. The lighting is somewhat dim, and the overall color palette is dominated by the yellow of the forklift and the grey of the shelving units.

RANGER LIFT TRUCKS

Ranger Lift Trucks' customers rely on heavy duty equipment to operate their business and stay productive. They are also value-minded and want equipment that is both affordable and dependable.

Buying "as is" on your own

1

THE RANGER CERTIFIED PRE-OWNED PROGRAM

HOW RANGER LIFT TRUCKS DELIVERS BETTER EQUIPMENT

ACQUISITION

- Ranger requires a condition report prior to considering any purchase.
 - We then send a representative to survey a potentially suitable forklift prior to purchase.
 - Once purchased, a certified technician conducts a thorough inspection at our facility.
 - If the equipment fails the inspection we have preset procedures to remedy the problem with the seller.
-

2

RESTORATION

- Once equipment passes the purchase inspection, we start the make ready process.
- We create a parts list of items that need replacement or repair.
- A Ranger certified technician is assigned to the job.
- A Service manager and lead technician will also assist to insure quality control.
- When the make ready is complete, the equipment is tested.
- If it passes the test, a final inspection is completed by a supervisor.
- After final inspection, it will go on sale, made available for onsite customer inspection or be immediately shipped to the customer.

NOTE: Ranger can also offer a third-party inspection for a customer that cannot make it to our facility for their own inspection.

SALES & RENTAL

- We provide measurable value to our customers by supplying pre-owned equipment that we expect to perform in a dependable manner at a much lower price than new.
- We have a fleet of forklifts that are available for both short term rental or long term leases.
- We carry a large supply of forklifts to meet our customer needs.
- Customers regularly ask us to procure equipment to meet a specific need.

NOTE: When we procure on behalf of our customers, we follow a similar process as when we are purchasing wholesale for our own inventory.

4

WARRANTY

- We stand behind our workmanship and equipment to reduce risk to the customer.
- Ranger provides a variety of warranty options.
- Warranty claims get taken care of as soon as possible to limit equipment down time.

SERVICE

- We provide service both at Ranger's facilities and customer locations.
- Our certified technicians are specially trained to work on lift trucks.
- We make our rental fleet available at a discounted rate for customers whose unit is being serviced.
- We offer preventative maintenance programs for all lift truck equipment.
